9th January 2018

Dear Sir / Madam

Anglian Water and its contractor, Kier, have recently started work to replace the Water Main in the High Road, Bressingham. This work is part of a larger scheme in the Fersfield / Bressingham area that is essential to maintaining a quality service and to address interruption to supply & pressure issues.

Due to the nature of this work and the Health & Safety implications this scheme will involve varying levels of Traffic Management at different stages and there is a road closure in place, access to properties will be maintained from one end of the High Road at all times. However can it please be noted that parking on the High Road at the War Memorial end is prohibited. This is to ensure the safety of both our operatives and the general public. There is movement and operation of heavy plant and machinery in this location and if this Road Closure is not adhered to the risk of harm to yourselves and damage to your vehicles is greatly increased.

As an alternative, there is parking available at the Village Hall, whilst dropping off and collecting your children and pedestrian access will be open at all times from this location down to the school. Access to the Village Hall will only be available from the Pillar Box Corner end of the High Road at School times. Vehicular access will not be available from the War Memorial end until such time as our construction program has progressed away from this area further down the High Road. We will keep you updated as to any changes.

Due to the nature of the work, disruption and disturbance will be inevitable, however every effort will be made to minimise inconvenience. We'll be on site during the work, so if you have any questions please come and talk to us. If you're unable to find someone to help you on site, please call our 24 hour customer contact centre on 03457 145 145 or alternatively you can contact me directly on 07889 190069.

Yours sincerely

Alan Boulter
